[Correspondence of the Quincy Republican.]

Mincruis, Tenn. Sept. 29.—After air months rest and comparasive heactivity in the neighborhood of Memphis, the 119th Illinois is at last waking up and preparing for active service again. Some great move is in preparation, and we see gaid to think that we shall have a share in it.

Gen. Sherman's corps is, in part, here, and the remainder on the way, to take part in the expedition. Gen. Frentles is here, and is to have command of one of the wings of the 10th Army Corps. It is said that there are to the —thousand troops in motion from here shortly, all under command of Gen. Sherman. All of our men who are unable to march are ordered to the General Hospital in Memphis. Regarge has been cut down to the minimum allowance. All necessary clothing has been drawn, and we have just received new Springseld rifle musates, turning over our Eanleids (which we have had only two or three months) in order that the arms of our division hay be uniform in eather, so as to facilitate the supply of ammunition. We are now on a war footing, and resdy to go and see the bird they call the "elephant." Probably some of us will not come back to tell shout it, but no one thinks he will be the unlinely man. All are jutilant, and look forward to the speedy closing of the war after this reason's campaign.

The 119th Illinois is now in the 4th beigade.

[Special Dispatch to the Chicago Tribune.]

Laavanwouru, Oct. a, 1683.

A messenger arrived at Fort Scott, on Sunday morning, with a despatch to the effect that the rebels were preparing to attack that post. When Gen. Blunt left Fort Bmith, he placed Col. Clond with his brigade in command of the post. Cloud, it seems, ambitious to do something in the General's absence, divided his command, taking the major part on a secul to Little Rock. The schole. tions to do something in the General's absence, divided his command, taking the major part on a scout to Little Rock. The rebels, learning that there were only a few troops left in Yort Smith, were making preparations to existe the place. The news was received at 11 a. m., and Gen. Stant, with his usual colority, started the same day, at 3 o'clock p. m., for Fort Smith. The rebel Col. Coffee was at Cowakin Frairie, with Quantrell and about 1,000 men, ostensibly watching for Sinnit's supply trains; but on the 1st, Cobbell, with 1,000 of Cooper's force, crossed the Arkanas Siver east of Fort Smith, passed between Fayetieville and Bentonville, in Arkanas, and Joined Coffee at Cowakin Frairie, determined to make a raid either in Kamas or Missouri. At hat accounts, they were at Pineville, Mo, marching toward Fort Scott. Upon this information, all the cavalry in the district and a battery were ordered to Fort Scott. Gen. Stunt made a detout to the right, and passed this force on his way to Port Scott. How the supply the place of the cavalry sent to Fart Scott. So far, everything appears to be in readinase in most lists new phase of affairs.

The Republican State Central Committee met this afternoon. Hom. Robert Crosler was mominated for Chief Justice of the State.

The following resolvations were adopted: man. All see publishes, and the this season's campaign.

The 110th Illinois is now in the 4th beigade of the 5th divisions of the 10th Army Gorpa. The 4th brigate is commanded by Col. Moore of the 21st Missouri; the 5th division by Gen. Vestel, formerly of the 25th Indiana.

The health of our regions in now pretty good, and is constantly improving as the weather grown cooler.

No more furloughs are to be granted to see in this department (unless to those sick in the General Hospital) until further or have.

St. Lova, Oct. 8, 1963.

Further news of the invasion of the southwest by Shelby's gang represents them making for Occobs and Warnaw in two parties.

Our cavalry is aiready on the track and a gang of sixty guerillae has been intercepted six miles south of Syracuse with wagons contait tog plunder. The rebels in Jackson, Saline and Ladayette counties are said to be preparing to join Shelby in large number. An attempt is in progress to re-cetabilish courts and the sway of civil powers in several counties of southeast Missouri where the rebels

the accessivy and precessivity or opening this savigation between the Madisaippel River. The great Lakes and the Aliantic Ocean.

A memorial was adopted. It is somewhat lengthy, and enters clabrackely into a detail of facts, demonstrating the need of enlarged water inclinities for communication between the East and the West, buth for commercial and sulfillary purposes. It moints to the vast assemblings of commercial men in June, and the unusuality and corrections of the expression of that meetiny. The military importance of the work is strongly set forth, in view of the exposed condition of our Northern frontier as compared with the Atlantic coast and the defenses of Canada.

If then explains the great commercial importance of the proposed slip canala—that the present channels of navigation are fundaquate to the demands of our growing trade and commerce, and this enlarged facilities are absolutely necessary. Many strong and important facts and statistics are presented in support of this argument.

The memorial then goes on to show the national importance of the proposed child canala—that the national unity will be forever secured by them—that they would bind together the East and the West as inseparably, by the life artery of commerce, as the West and the Bouth are bound together by the Mississippi River. The memorial concludes with a forcible appeal to the Government in shall of this great work on the secre of astional unity and development.

The memorial, after being read at the most jug of the Executive Committee, yeakerday was discussed, and finally adopted unam monaly. It will be presented to the Presider immediately, in order that he may agail direct the attention of Congress to this due portant audject in his Annual Message, an printed copies of it will be distributed amon the members of the House and Senate as accompress that have organized.
